2. The followings are further clarified against GeM Bid Document No.: **GEM/2025/B/6314838 Dated: 06.06.2025** & **CORRIGENDUM#1** Dated 27.06.2025 as indicated below:

Sl No	Clause No.	Tender Specification	Description/Vendors Query	Clarification
1	SECTION-V Scope of Work (SOW)  Technical Specifications  Switch  SI No – 5 - Security	Must have 802.1ab LLDP, SNMP v1, v2c, v3, RMON group 1,2,3,9, IEEE 802.1x, Guest Vlan, RADIUS-based VLAN assignment via .1x, MAC-based .1x, RADIUS accounting, Access Control Lists (ACLs) L2, L3, L4, IP-based ACLs (IPv4 and IPv6), MAC-based ACLs, TCP/UDP-based ACLs, MAC lockdown, MAC lockdown by the number of MACs, IEEE 802.1x RADIUS port access authentication, Port-based security by locked MAC addresses, Broadcast, multicast, unknown unicast storm control, DoS attacks prevention, Dynamic ARP inspection etc.	Kindly modify "DoS attack prevention" to "DoS Defend", to make the specification more inclusive	<b>Tender conditions prevail.</b>
2	SECTION-V Scope of Work (SOW)  Technical Specifications  Switch  SI No – 10 - Certification	Must have: CE, FCC Class A, ICES Class A and MTCTE from TEC	Replace "FCC Class A certification" with "FCC certification", as Class A is restrictive and may exclude otherwise compliant products	<b>Tender conditions prevail</b>
3	SECTION-V Scope of Work (SOW)  Technical Specifications  Switch	Must have: CE, FCC Class A, ICES Class A and MTCTE from TEC	Upon reviewing the technical specifications, we noticed that the requirement for ICES Class A certification—a Canada-based OEM-specific compliance standard—is	<b>Requisite changes incorporated in Corrigendum</b>

	<b>SI No – 10 - Certification</b>		<p>mentioned. We would like to respectfully highlight that ICES-certified switches are extremely limited in availability within the Indian market, making it difficult for most vendors to comply with this clause. This certificate is OEM specifics.</p> <p>Remove "ICES Class A certification" and instead include a more globally recognized benchmark by adding:</p> <p>"OEM must be listed in the Gartner Magic Quadrant for Enterprise Wired and Wireless LAN Infrastructure in the last 4 quarters OR must have TEC certification."</p>
